Future Sponsors,

My name is DJ Bassani and I am currently 7 years old. I first started racing two seasons ago one month before my fifth birthday. I am just entering the second grade and have already received outstanding grades in my first two years of school. Some of my hobbies include snowmobiling, fishing, skiing and of course racing quads.

Currently I am the National Champion for the 50cc stock limited class. It was my rookie year in the 70cc CVT class and I took a remarkable 8th place in points which included two second place finishes for the season. I also proudly dominated the hole shots in both the above mentioned ATV classes and made all the qualifiers in the 70 CVT class.

It was an honor and a privilege to race for Hetrick's Racing Team this past year. I am also extremely proud to be sponsored by the factory with a new DRR/DRX youth ATV for this upcoming year.

I have written this resume with the help of my mom to kindly ask for your support. With that, I will be able to compete in all the Nationals for the 2010 season and for a run at another National title in the 70 CVT class. Please consider this request as an opportunity to join me in my journey to the top. With my experience, talent, and over three-dozen wins under my belt, I plan to take my race program to the next level. I promise that my machine will always be in top shape as I proudly promote and display the support your company has given me. Please feel free to contact my Mom and Dad at anytime with any questions or comments.

Thank you for your consideration.

DJ Bassani
